AMRUTA YADAV (Software Developer)

amrutay412@gmail.com | +917204252278 | Bengaluru, Karnataka

GitHub | **LinkedIn** | **Portfolio**

SUMMARY

Software Developer skilled in **JavaScript(ES6+) HTML5, CSS3, Python, SQL** Experienced in building **responsive Design**, **user-friendly**, and accessible web applications. Hands-on experience with Git, GitHub.

EXPERIENCE

KODNEST - Full Stack Development Program (Trainee) 07/2025 - 01/2026

- Completed intensive training in Full Stack Development.
- Worked on HTML, CSS, JavaScript, Python, and database concepts.

IBM & Roaman Technologies (DevOps Engineering Intern) 09/2024 –01/2025

- Worked with Git, Jenkins, Docker basics, and CI/CD. Gained practical exposure to version control, containerization, and deployment practices.

SKILLS

• **Programming Languages**:- Python

• **Frontend Technologies**:- JavaScript (ES6+), HTML5, CSS3

• **Databases**:- SQL

• **Tools** :- Git, GitHub

• **Design**:- Figma, UI/UX Principles

EDUCATION

Bachelor of Engineering(CSE) : Maratha Mandal Engg College 11/2021 – 05/2025

- CGPA: 8.42

PUC: Jyoti PU College 09/2019 – 04/2021

- Percentage: 81%

SSLC: Mahila Vidyalaya High School 06/2016 – 04/2019

- Percentage: 82%

PROJECTS

Project Paradox – Crop Recommendation System (React, Django, MySQL)

- Developed a web-based prototype to recommend suitable crops based on soil and location
- data,achieving 85% prediction accuracy in test scenarios.
- Integrated backend API with React frontend for seamless data flow.

Academia – Mini E-Learning Platform (Django, HTML, CSS)

- Developed a mini e-learning platform in Django with book listings, study material sharing,and group chat features.
- Built a platform for accessing study materials, books, and group.

Face attendance system (OpenCV, Python)

- Developed an online face attendance system using Python and OpenCV, implementing real-time face detection
- Built a face recognition–based attendance system leveraging OpenCV and Python,

UI/UX Kids E-commerce

- Designed a responsive e-commerce UI in Figma, applying UX principles for navigation and user engagement
- Designed a playful and responsive e-commerce interface targeting kids' products.

CERTIFICATIONS

- **Python with Machine Learning**- (Pandas, NumPy, Scikit-learn) - compsoft technologies
- **UI/UX design** -(Figma) - Varcons Technologies
- **DevOps Internship** (via NSDC)- (Git, Jenkins, Docker, CI/CD) - IBM & Roaman Technologie
